High-voltage transformer fire barriers, or transformer firewalls, transformer ballistic firewalls, transformer blast walls, are outdoor countermeasures against cascading failures in a national electric grid. The purpose of these barriers, like common fire barriers in building construction, is compartmentalisation of transformer fires, as well as transformer and bushing explosions where the fuel ...

History. In 1929, a cigarette-ignited fire in Lowell, Massachusetts, caught the attention of U.S. Congresswoman Edith Nourse Rogers (D-MA); she called for the National Bureau of Standards (now the National Institute of Standards and Technology (NIST)) to develop the first less fire-prone cigarette, which NBS introduced in 1932. The Boston Herald American covered the story on 31 March 1932 ...
