### **47 Tips on How to Grow Taller Faster Naturally**

Human height or stature is the distance from the bottom of the feet to the top of the head in a human body, standing erect. It is measured using a stadiometer, usually in centimetres when using the metric system, or feet and inches when using the imperial system.. A particular genetic profile in men called Y haplotype I-M170 is correlated with height. . Ecological data shows that as the ...
