General Knowledge - Biology - Aptitude Questions and Answers

A goal is an idea of the future or desired result that a person or a group of people envisions, plans and commits to achieve. People endeavor to reach goals within a finite time by setting deadlines.. A goal is roughly similar to a purpose or aim, the anticipated result which guides reaction, or an end, which is an object, either a physical object or an abstract object, that has intrinsic value

Goal - Wikipedia

Responsible for anticipating, assessing and controlling risks posed by the handling and use of bacteria, viruses, potentially infectious human materials and other microorganisms, toxins and biological materials, in research and clinical practice.
