Intellectual capital is the intangible value of a business, covering its people (human capital), the value relating to its relationships (relational capital), and everything that is left when the employees go home (structural capital), of which intellectual property (IP) is but one component. It is the sum of everything everybody in a company knows that gives it a competitive edge.

The creation of a National Infrastructure Reinvestment Bank was first proposed by United States Senator Christopher J. Dodd and Senator Chuck Hagel in 2007. However, several other iterations of a National Infrastructure Bank have been proposed and considered and it is likely that implementing legislation for the Bank will look quite different from that which was proposed in the original ...

Recent technological advances have unleashed a boom in U.S. natural gas production, with expanded supplies and substantially lower prices projected well into the future. Because combusting natural gas yields fewer greenhouse gas emissions than coal or petroleum, the expanded use of natural gas offers significant opportunities to help address global climate change.
