Optimum and Last Planting Date, Minimum Stands, Crops Loss from Frost or Hail Optimum and Last Planting Date Optimum and last planting date, and yield losses due to late planting of small grains.

### **Optimum and Last Planting Date, Minimum Stands, Crops Loss**

Most varieties of barley, some of oats, and all varieties of rye escape considerable damage because of their early maturity as compared with wheat. Stem rust sometimes injures barley seriously. Leaf rust is not usually serious but is sometimes locally de-structive on spring barley. The stem and leaf rusts do not cause serious losses in rye.
