Managing Opportunities and Risks - CIMA

Risk management is the identification, evaluation, and prioritization of risks (defined in ISO 31000 as the effect of uncertainty on objectives) followed by coordinated and economical application of resources to minimize, monitor, and control the probability or impact of unfortunate events or to maximize the realization of opportunities. Risks can come from various sources including ...

Risk management - Wikipedia

Financial risk management is the practice of economic value in a firm by using financial instruments to manage exposure to risk: operational risk, credit risk and market risk, foreign exchange risk, shape risk, volatility risk, liquidity risk, inflation risk, business risk, legal risk, reputational risk, sector risk etc. Similar to general risk management, financial risk management requires ...

Financial risk management - Wikipedia

Quote HSE "Success in managing major Hazards is not measured by the Occupational Health and Safety Statistics but by measuring the performance of critical systems used to control risks to ensure they are operating as intended.. This statement is a very powerful statement and i want to stand on the premise that it should form the basis of assessing and formulating regulation regimes.

Topic 9: Safety and risk management in oil and gas

Checking that you are managing risks in your organisation is a vital, sometimes overlooked step. It will give you the confidence that you are doing enough to keep on top of health and safety and maybe show you how you could do things better in the future.
